

Fund Update

For the quarter ended 31 March 2018

- Russell Investment Funds
- Russell Investments Global Shares Fund

This fund update was first made publicly available on: 30 April 2018

What is the purpose of this update?

This document tells you how the Russell Investments Global Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Implemented Investment Solutions Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Objective: to provide a total return, before costs and tax, higher than the Russell Global Large Cap - Net Index over the long term (3 years plus).

Strategy: the underlying investment exposure is predominantly to a broad range of international shares listed on stock exchanges in developed markets and emerging international markets. Derivatives may be used to obtain or reduce exposure to securities and markets, to implement investment strategies and to manage risk. The fund is normally not hedged to the New Zealand dollar.

Total value of the fund	\$NZ 66,835,315
The date the fund started	14 November 2012

What are the risks of investing?

Risk indicator for the Russell Investments Global Shares Fund.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 years to 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?¹

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	11.50%	10.71%
Annual return (after deductions for charges but before tax)	12.63%	11.83%
Market index annual return (reflects no deduction for charges and tax)	12.75%	11.32%

The market index return is the Russell Global Large Cap - Net Index. Additional information about the market index is available on the offer register at www.companiesoffice.govt.nz/disclose.

Annual Return Graph²

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2018.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Russell Investments Global Shares Fund are charged fund charges. In the year to 31 March 2017 these were:

	% of net asset value
Total fund charges	1.50%
Which are made up of -	
Total management and administration charges	1.50%
Including -	
Manager's basic fee (including GST)	1.32%
Other management and administration charges (including GST)	0.18%

The 'other management and administration charges' include fees and costs charged in underlying funds. The amount of fees and costs charged in underlying funds has been estimated. See Note 3 at the end of this fund update for more information about this estimate.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Russell Investment Funds on the offer register at www.companiesoffice.govt.nz/disclose for more information about those fees.

Example of how this applies to an investor

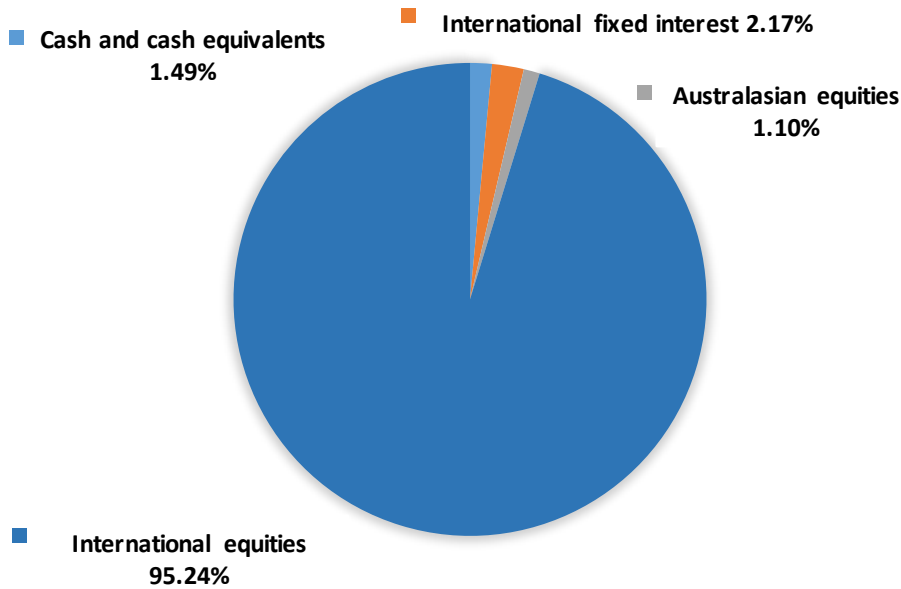

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Anthony received a return after fund charges were deducted of \$1,183 (that is 11.83% of his initial \$10,000). This gives Anthony a total return after tax of \$1,071 for the year.
