

Fund Update

For the quarter ended 30 September 2017

- APN Investment Funds Scheme
- APN AREIT PIE Fund

This fund update was first made publicly available on: 27 October 2017

What is the purpose of this update?

This document tells you how the APN AREIT PIE Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Implemented Investment Solutions Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Objective: to provide investors with a consistent, relatively high level of income combined with some capital growth, sourced primarily from Australian Real Estate Investment Trusts ('AREITs') listed on the ASX.

Strategy: the fund invests in an Australian Unit Trust ('Underlying Fund') managed by APN Funds Management Limited ('APN'). The underlying fund invests in AREIT shares. The fund targets a position of being fully hedged back to the New Zealand dollar.

Total value of the fund	\$NZ 2,923,085
The date the fund started	10 March 2017

What are the risks of investing?

Risk indicator for the APN AREIT PIE Fund.¹

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on a combination of actual and market index returns data for the 5 years to 30 September 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return (reflects no deduction for charges and tax) ²	-1.82%

The market index return is the S&P/ASX 300 AREIT Index - Hedged to \$NZ. Additional information about the market index is available on the offer register at www.companiesoffice.govt.nz/disclose.

What fees are investors charged?

Investors in the APN AREIT PIE Fund are charged fund charges which are:

	% of net asset value
Total fund charges	1.10%
Which are made up of -	
Total management and administration charges	1.10%
Including -	
Manager's basic fee (excluding GST)	1.10%
Other management and administration charges (excluding GST)	0.00%

The 'other management and administration charges' has been estimated. See Note 3 at the end of this fund update for more information about this estimate.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the APN Investment Funds Scheme on the offer register at www.companiesoffice.govt.nz/disclose for more information about those fees.

Example of how this applies to an investor⁴

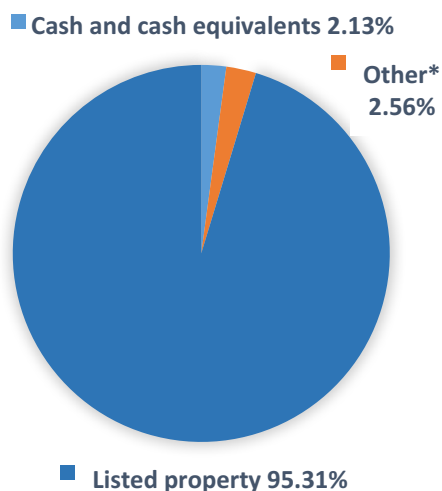

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had \$10,000 in the fund when the fund received its first contribution, on 10 March 2017, and did not make any further contributions. At the end of the period to 30 September 2017 Anthony received a return after fund charges were deducted of -\$211 (that is -2.11% of his initial \$10,000). This gives Anthony a total return after tax of -\$227 for the period.

Further information

You can also obtain this information, the PDS for the APN Investment Funds Scheme, and some additional information from the offer register at www.companiesoffice.govt.nz/disclose.

Notes

- ¹ A combination of actual fund returns and market index returns have been used to determine the risk indicator as the fund has not been operating for the required five years. The risk indicator may therefore provide a less reliable indicator of the fund's future volatility. Market index returns have been used for the period to 10 March 2017.
- ² The market index return is the S&P/ASX 300 AREIT Index - Hedged to \$NZ. Prior to 31 March 2017 Implemented Investment Solutions Limited calculated the adjustment for currency hedging to New Zealand dollars.
- ³ We have assumed there are no extraordinary expenses such as costs of any litigation or unitholder meetings.
- ⁴ As the fund has not existed for a full year, this calculation is based on the returns from the date of the first fund contribution (10 March 2017).
